

8" Digital Photo Frame

Stunning High Resolution for Stylish Digital Memories

VFD820-70

The ViewSonic® VFD820-70 8" digital photo frame makes it easy to showcase your favorite photos in luxurious style. The high-resolution 800x600 screen delivers brilliant picture quality, bordered by an ultra-slim and fashionable frame. The sleek and space saving design makes this a wonderful addition to any home or office environment. Enjoy your most cherished memories in beauty and style.

Displaying your digital memories is easier than ever before with the easy-to-use and highly intuitive user interface. More than just a photo frame, the VFD820-70 is a fashionable and functional piece of décor that elegantly showcases your favorite photographs. Rich features include auto on/off, light sensor, LED backlight for power saving, and calendar and clock functions.

Made to Make Memories More Beautiful

With an expansive 8" screen at a stunning 800x600 resolution, the VFD820-70 was expertly engineered to display your favorite photos in all their beauty. You can count on a crisp and sharp image wrapped in a super slim and stylish frame. The 4:3 aspect ratio is optimized for photos, so your memories come to life with no stretching or distortion – just the way they were meant to be.

Just Plug In and Enjoy

The VFD820-70 was made to support the wide range of photos from any digital media device. The included card reader supports most common digital camera memory cards. You'll be up and running in only moments. Just plug in your memory card loaded with JPG file format photos to start showcasing your memories in stunning digital clarity right away.

The Perfect Gift

A digital photo frame is the perfect gift for any occasion - weddings, birthdays, graduations, anniversaries, baby showers or just anytime to show your appreciation and caring. It's also an excellent choice as a premium/incentive item offered by employers and organization.

Practical Features for Premium Value

The VFD820-70 is a beautiful piece of décor that enhances any room. Rich features such as calendar and clock pair practical functionality with high style.

Smart Features for Green Living

The LED backlight technology enhances the outstanding image quality and also saves energy. The built-in light sensor and auto on/off features allow the display to adjust automatically to accommodate the lighting in any environment for even more energy savings.
